As there were no such qualifications, observations or comments, both the Auditors' Reports were not read out at the meeting, like in the previous year.

The Chairman then addressed the meeting and said :

Dear Shareholders,

I extend to you all a cordial welcome to this 12th Annual General Meeting of the Company.

The audited Statement of Accounts for the year ended 31st March, 2015 and the Directors' Report have been with you for sometime now and, with your approval, I shall take them as read.

As you may recall, a lock out was declared in the plant w.e.f. 4th February, 2014 due to labour unrest, which was lifted w.e.f. 26th December, 2014. However, the production activities could not be resumed due to steep decline in sales realisation of ferro alloy products and an increase in power tariff thus making the resumption of production activities an unviable proposition.

As a result, during the financial year 2014-15 there was no business done except some minor depot sales. At the same time, due to fixed overheads, company has incurred a loss of Rs.807.36 lacs during FY 2014-15, net of write back of deferred tax and income on sale of fixed assets including interest income of Rs.1198.66 Lacs and Rs.1518.02 Lacs respectively.

As mentioned above, the production activities are yet to be resumed and hence there is no production during the first 5 months of financial year 2015-16 starting from 01.04.2015 to 31.08.2015 also. Ferro Alloys is a power intensive industry. Many ferro alloys units are closed in Andhra Pradesh due to steep hike in power tariff. Representations have been made by the Ferro Alloys Producers Association with the State Government for a reduction in power tariff and the matter is continuously followed up and is under consideration of the State Government. Once the government grants such relief, we will resume the operations.

PROSPECTS

Prospects of ferro alloys industry being saddled on the Steel Industry swing in the direction the latter takes. Being a power intensive industry, power constitutes a major portion of its cost of production. This is a major factor for limiting the capacity utilization of ferro alloys industry. This problem is compounded further due to high power tariff vis a vis competing countries like China, South Africa, Kazakistan to cite a few.

Also, Ferro Chrome prices remained low throughout the year owing to poor market sentiments relating to stainless steel and depreciation of the South Africa Rand. Poor market sentiments have affected the price of ferro alloy products. Not only in India, Ferro Chrome prices have got a beating in China as well due to weak demand and excess capacity.

However, India has now emerged as the 4th largest producer of crude steel in the world as against 8th position it occupied in the year 2003 and expects to become 2nd largest producer of crude steel soon. India is a significant player with almost one tenth of the global ferro chrome output and produces about 1 million tons per annum. At present, growth of stainless steel production/consumption has been somewhat sedate. As focus shifts from initial cost of acquisition to a lifecycle cost, it is expected that stainless steel consumption will increase at a faster pace making India one of the key drivers and providing a boost to the ferro chrome industry.

Further, India's per capita steel consumption is about one-fourth of the global average. There are demands for better housing, sophisticated transport hubs and new infrastructure for better connectivity. Hence, the long term future of the Iron and Steel industry is optimistic and positive as Government of India is giving utmost importance to develop infrastructure facilities, which will enhance the consumption of the Iron and steel in the country. The "Make in India" initiative of the Government of India covering development of 100 smart cities, mid day meal scheme which will involve extensive usage of stainless steel for hygiene, the clean India campaign, the stainless steel bio mass stove will fuel the demand for steel and consequently the ferro chrome as well being an essential ingredient in the manufacture of steel. Further the bifurcation of the erstwhile Andhra Pradesh and the need for establishment

of a new capital for Andhra Pradesh will create huge demand for steel. This presents a good potential growth for Ferro Alloys Industry in the Country.

Also, India's economic outlook is improving following the election of a new government which is promising pro-business reforms.

Before I conclude I would like to thank all members on the Board for their valuable advice, guidance and support. I also take this opportunity to express my sincere gratitude for the support and cooperation received from Central and State Governments, Consortium Banks, shareholders as well as all other stake holders. I also thank all Members of staff and workers at all levels for their dedication.

Thank you.
